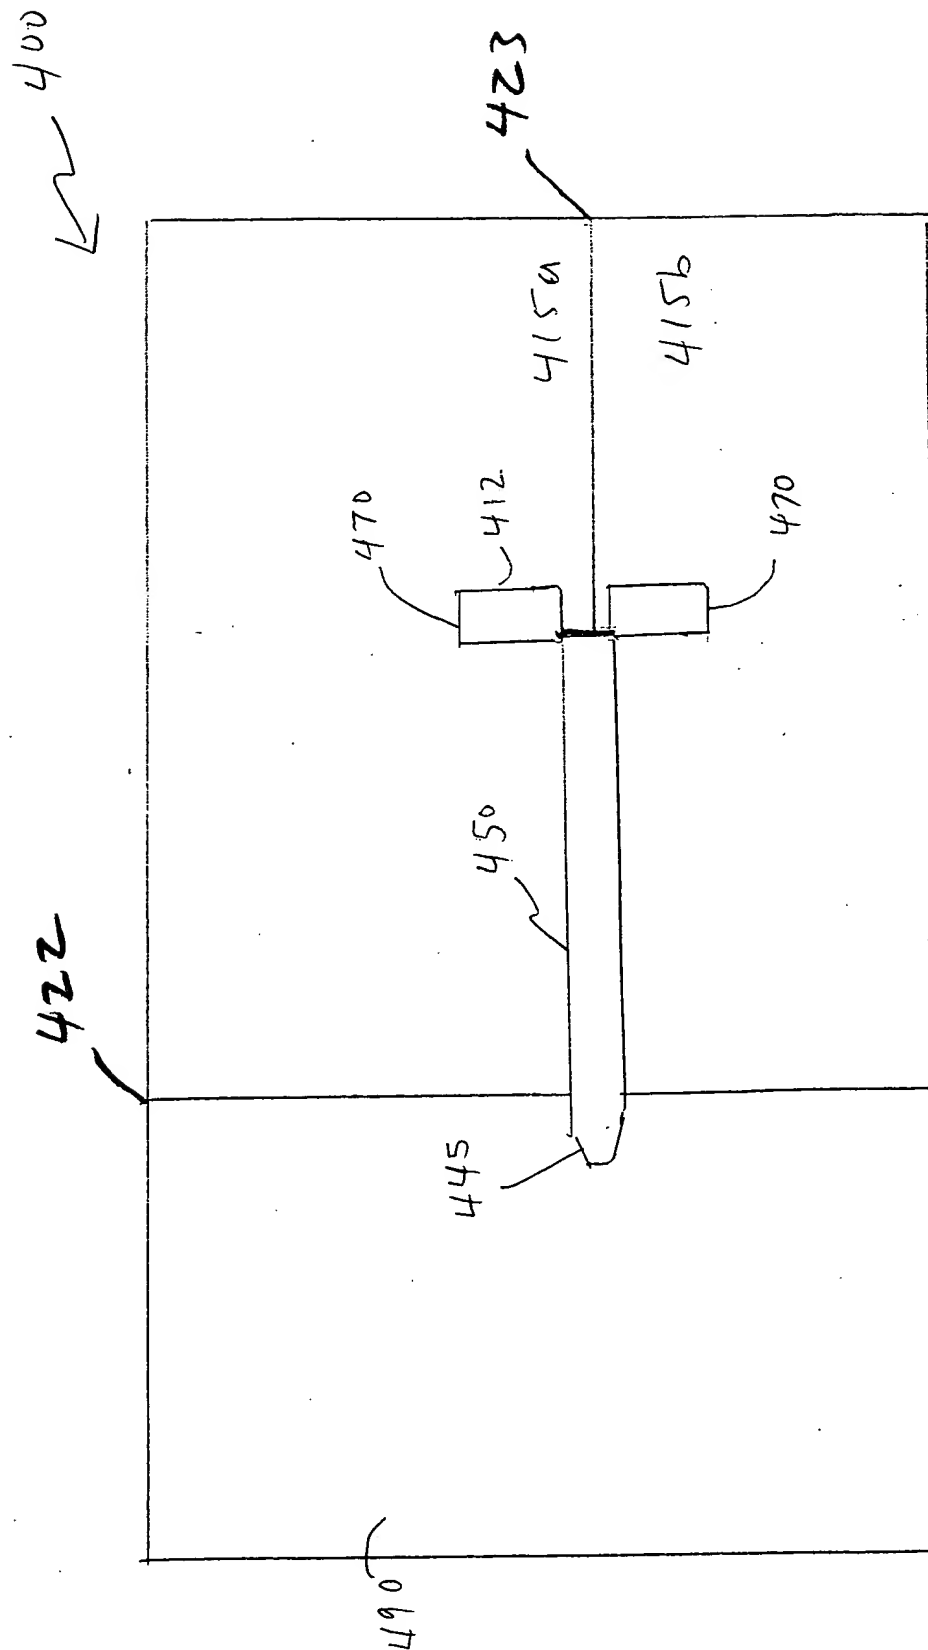

Fig. 9

A hand-drawn schematic diagram of a probe assembly, labeled 505. The assembly consists of a long, thin probe body 540 with a pointed tip 550. The probe body is connected to a base 530, which is mounted on a rectangular support structure 520. The base 530 is shown with a cross-hatched section, indicating a specific material or connection point. The support structure 520 is shown in two views, one from the top and one from the side, both labeled 520. The probe body 540 is shown in a perspective view, with a dashed line indicating its internal structure. The tip 550 is shown in a perspective view, with a dashed line indicating its internal structure.
